Called [REDACTED] x2100 re Corres HB

She has nothing now. When she left HQ she turned the HB and her comments back to [REDACTED] who was to forward them to

25X1A9a

Bernice said she met with secretaries from DCI, DDCI, & ExDir and later with secretaries from the 3 DD's. She prepared comments based on these meetings but said that additional personnel changes were being made top side which would require further changes to her comments. She understood that Sally did get the HB but shortly thereafter Col White moved up and Sally has been too swamped to do anything further on the HB or the comments.
